

Diabetes Mellitus

Was your pet diagnosed with diabetes?

Are they:

Drinking More?

Urinating More?

Losing Weight?

Difficult to Control?

We've got you covered!

What you will learn:

- What it means when your pet is diagnosed with diabetes
- What does the pancreas do
- What is insulin
- What to monitor for at home
- What is a diabetic emergency
- What are ketones
- How you treat diabetic patients
- What the lab work means

We provide the information you need to keep your fur baby as healthy as possible.

Go to:

imfpp.org/diabetes

Arm yourself with the knowledge you need to fight.

Who are we?

We are veterinary technician specialists in internal medicine with over 30 years of combined experience.

We bring the specialists to you.

We're a community of pet owners who want to know what our furry family members have and how to treat them.

Join a community of pet owners and veterinary professionals to live happier, healthier lives with our pets.
